About This Content

Burning Bridges is the fourth episode of The Council's 5-episode season. The Complete Season of The Council grants access to all 5 episodes.

Louis de Richet enters the depths of Lord Mortimer's island hunting truths about his mother and the other guests. The mausoleum he finds there contains more secrets than he could possibly have predicted.

The fourth episode sees allegiances explained, rivalries come to a head, and the ghosts of the past begin to catch up to the inhabitants of the island. Your decisions will haunt you as you decide the fate of Louis, Mortimer, and the world itself.

Continue your adventure in The Council Episode 4: Burning Bridges as new powers rise and your freedom to choose will determine everything.

Energy Balance takes a fine math puzzle and wraps it in some of the most pathetic graphics and in-game dialog ever created. It's as if the designers actually sat in a room and said, "How can we make this even dumber? Cool, let's do that!" In addition, it has a really limited set of puzzles, and doesn't take very long to complete. A rather disappointing affair.. This is a must play for RPGV MMORPG fans. It starts off a little slow, but once you start to figure things out, you will find a world full of exciting new things to find around every corner. This is also one of the few MMOs out there that require you to actually put some thought into it. The community is also quite nice and events are held on the regular. My only complaint is the performance, but that'll soon hopefully be fixed with the upgrade to Unity. Highly recommend.. Fun little RPG that got me nostalgic about some of the old RPGs I used to play when I was little. I think the graphics fit great with the feel of the game!. This song bring me back to youth when i was with her..... Great job developers! I love this luxury condo. The little secrets are funny and fun to play. Please don't take anything away. However, why is the Master bedroom nonfunctional? Open it up, and add a luxury bath. The lady behind the door can be added as a shadow in the bedroom shower. (wink) Also, add a cute puppy and a hot maid.. \u2b50\u2b50\u2b50\u2b50. nice game, good idea.. literal autism

I first came across Millennium - A New Hope back in 2009 when i read an interesting review on Gamezebo.

I decided to try it and it didn't let me down.

You play as Marine, a young girl, that after a tragedy hit her family, decides to challenge the aristocracy of Mystrook and bring the change everybody in Myst needs.

The game is a turn based RPG that features invisible or visible enemies, mouse control and different difficulty levels. Also, animal kings (they drop rare goodies), secret rooms, many side quests and interesting battle strategies.

If you want to play a fun game and enjoy it, Millennium is one of them.. Just finished this one, yet again, the longest. Have to say, kind of a shame to have the story come to a conclusion, as i enjoyed being with the characters.

Picking up where the previous left off, bring it to the conclusion, if i have to recommend a particular thing.. save just before the end of act 1. choices affect achievements...

But overall, did enjoy this one.. and enjoyed the Pilgrim series as a whole! Definatly recommend, especially at it's price..

Awesome

. I really loved this game!!! I think this game picked up where mystery case files (the old mystery case files) left off. If you like casual adventure games you will love this one.. I like itr

. I will admit I haven put much time into the game, and for visual novels this early reiew could be an even greater mistake.

The game really doesn't give you goals. You've got this dev sim side of he game which is clunky and sometimes doesn't make sense. We aren't told how our decision with the modules and systems presented to us will affect the game in the future. The interface here is farely clunky and will require a lot of clicking. The reward for this work is the games currency, which as of now can't be channeled into things that make my characters or products "better".

Maybe I'm an impatient reader, but the story as far as I made it was not really engaging. Neither are the characters either, not that you seem to get the chance to know them. You've got Alex, a redheaded tomboy, Elise the shy one, and Risa, the Shinji of the group. So far the only choices I've been given seem to have no immediate impact and feel devoid of meaning. Sure, I know visual and kinetic novels can go forever without choice, but at least ithey don't pretend to give me options.

Arbitrary is how I would define the game. There is freedom with how you "build" games, but it feels meaningless. It's just guessing, and you can't even see the results until turns later. Results that have no meaning when you have nothing to compare them to.

If you want a sim play GameDev Tycoon. If you want a visual novel; there are better visual novels, like Clannad or something.

This is the waffle taco where it should have been Filipino food truck fusion.. **DO NOT BUY THIS GAME** - Instead get it from gog.com and not only will it be DRM free, it will be compatible with the XWA Upgrade Project which improved the graphics and enabled higher resolutions and support for widescreen monitors. The version on steam doesn't even work properly, can't set the resolution higher than 800x600 (you can change it settings, but it always defaults back to that when you enter a mission) and constantly crashes.

Likewise steer clear of X-Wing Vs Tie Fighter and the original X-Wing and Tie Fighter games... they simply don't work properly from steam and they won't do a damn thing to sort it out.

Asked a refund and they ignored it until I forced the issue and opened a dispute with paypal... they then tried to threaten my entire account if I didn't close the dispute.

I got my refund though.

UPDATE: 4th May 2016 (May the 4th be with you)

Apparently the XWAUP is now compatible with the steam version of the games... I was able to get my original discs working thanks to the great work they're doing.

But buy these games from steam at your own risk as they could break them and stop the XWAUP from working at any point.. I know what you must be thinking.

"Is\u2665\u2665\u2665\u2665\u2665Horse reeally in this DLC? He is\u2665\u2665\u2665\u2665\u2665Horse."

Well I'm gonna let you in on a secret.

YES.
